DST1002 — April 2014

Virtual Tabletop Tokens Volume 2 is a SciFi VTT token pack of 100 topdown tokens. The VTT categories include bipedal suits (any suit where the occupant cannot be immediately identified), bio mechanical aliens (a group of 4 tokens with a mixture of biological and mechanical components bound together), cyborgs, humans, humanoid and monstrous aliens, and robots.

We have responded to feedback given by our customers on our first VTT offering and labeled each individual VTT token (with the exception of No 1, 2, 3 for tokens with a similar appearance in different poses).

Categories:

Biped Suit: This includes any type of suit where the person inside cannot be identified, meaning they could be humans, robots, aliens, etc.

Bio Mechanical Alien: A group of four tokens with a mixture of biological and mechanical components from a species that mixes both freely to create new hybrids of living cells and machine.

Cyborg: A combination of human and robot. A man with a mechanical brain and a man with a mechanical cyberarm are in this category.

Human: Human Race

Humanoid Aliens: Bipedal aliens with a human-like appearance.

Monstrous Aliens: Aliens with a frightening appearance to humans.

Robots: Includes androids, drones, robots, and other pure mechanical forms.
